About Us

Paramax Cleaners is a registered cleaning and general supplies company at the core of offering the best cleaning services in Nairobi Kenya. We understand that coming home to a house that's clean and comfortable gives us all a wonderful feeling.

Paramax Cleaners also aim at supply of garbage trucks, combactors excavators and general supplies. While we boast of the machines and technology we use, as we do a lot of research and development to position ourselves among the best with the competing industry.

Before joining Paramax Cleaners family, each member is trained to become an expert in the detailed, customized services we provide. Only passionate, caring people have the honor of wearing our nationally recognized uniform.

We aim at:

- 1.Domestic cleaning which includes;** carpet and upholstery and area rug cleaning, floor sanding and varnishing, gardening and landscaping, fumigation and pest control, furniture cleaning, home spring cleaning, mattress cleaning, home cleaning, deep cleaning, detailed car cleaning etc.
- 2.Commercial cleaning:-** commercial property cleaning, executive office cleaning, facade cleaning, post construction cleaning.etc

Be a
recycler,
be a saver

Our Vision

To be distinguished as a company that offers the best and most cost effective cleaners , garbage collection and in general supplies.

Our Mission

To safely deliver any project, any time, in any environment for the benefits of our customers, shareholders, employees and the community we serve.

Core Values

The company's success has been attributed to the following core values:

- Uncompromising commitment to Quality, Health, Safety and Environment
- An open relationship with our employees based on mutual trust, respect and success
- Transparency, Accountability and Discipline in our business
- Best in class risk awareness
- Integrity in all we do
- Financial Responsibility to our stakeholders

Sustainable Waste Management

Use Wisely - The old adage “waste not, want not” is more relevant now than ever.

Eliminate Toxicity - Providing consumers with products and services that are safe for people and the environment is only possible if they are made out of safe materials.

Recover More - Recovering more value out of the materials economy is synergistically related to the principle of using materials wisely.

Life Cycle Design - Sustainable waste management is predicated on life cycle design which is a process for identifying the positive and negative impacts of the life cycle of materials as they are produced and consumed in an economy

Garbage Collection Services

Our experience encompasses many disciplines of waste management including waste classification, transportation and disposal of hazardous and non-hazardous waste, recycling, preparation of lab packs, and remediation services.

Utilizing its vast experience, knowledge, and resources, Paramax Cleaners can treat all types of waste, employing cost-effective, environmentally sound techniques in accordance with local, state, and federal standards. Some of Paramax Cleaner's waste management services include, but are not limited to:

- Identification and segregation of hazardous materials
- Proper packaging and labeling of all segregated materials according to government guidelines
- Proper preparation of hazardous waste manifests and other pertinent documents
- Transportation and disposal of both hazardous and non-hazardous waste to properly permitted disposal facilities

- (i) Preparation of lab packs
- (ii) Tank Services
- (iii) Storage Systems

All members of Paramax Cleaner's staff have successfully completed 40 hour Cleaning training and participate in 8-hour updates, as required.

Cleaning services at your doorstep

1. Residential Garbage Collection

Paramax Cleaners Services has proved to be the leading and most reliable garbage collector over the years. Our business is ensuring that your residential premises are garbage-free, clean, and free from rodents.

We supply you with our NEMA-approved bags and ensure that your waste is collected on time. Our experienced staff ensures that your estates and compounds are left clean as they pick up your waste. Try our affordable and very efficient services, we assure you that you won't regret it.

2. Commercial Garbage Collection

We closely work with SME'S and Corporates to help them keep a clean environment by collecting and disposing of their waste in relation to NEMA standards and regulations. The frequency of collection varies from client to client, depending on the agreement we have. We have a variety of receptacles that suit your waste production ranging from skips, drums, garbage bags, among others. Our services are affordable, effective, and reliable. Trust us and be sure that your waste will be handled in a legal, environmental and effective way with minimal disturbance to your business because we are the experts.

3. Special Garbage Collection

Special collection garbage collection services are offered to clients who have unusually large amounts of waste that require special disposal. The rates and schedule for collections are subject to the agreement between Paramax Cleaners and the client. Special waste is disposed of depending on the type of waste, one of the ways of disposing of the special waste is incineration.

Supplies

1. Garbage trucks

Correctly managing solid waste is critical to human and environmental well-being. As society grows, an underlying problem is the lack of efficient solid waste management. Our garbage truck bodies collect and transport the solid waste to treatment facilities for functions such as recycling and landfilling.

2. Combactors excavators

To help with your waste and recycling activities, we supply a range of crawler excavators specifically for material handling. As reliable and productive as our standard models, they offer enhanced visibility with an elevated cab, and greater stability thanks to a heavier counterweight.

3. Spill Recycle Kit

In case of minor oil spills, GFS is able to provide you with a Workshop Spill Kit, which consists of the following equipment:

- 1 x 240 litre plastic
- Wheely Bin 2 x 100 litre loose fibre (absorbent)
- 1 x 4 meter micro-boom
- 10x Supersorb mat pads
- 5 x disposable bags
- 1 x Spark-proof shovel
- 1 x Spark-proof broom
- 1 x pair PVC gloves
- 1 x pair Safety goggles

The above spill kit absorbs approximately 200 litres

Here are some other ways that set our company apart from the competition:

- We use earth and human friendly, non-toxic, safe and effective cleaning products
- We tailor our services to our client's need and requirements to maximize efficiencies
- We offer a large range of ancillary specialist cleaning services including carpet cleaning and window cleaning
- All Paramax team members are highly trained and have the relevant security checks in place
- We perform sundry cleans to everyday cleaning
- We believe that everyone is entitled to a clean, safe and healthy working environment.
